MYNSTUR OG RENDUR - Notkun

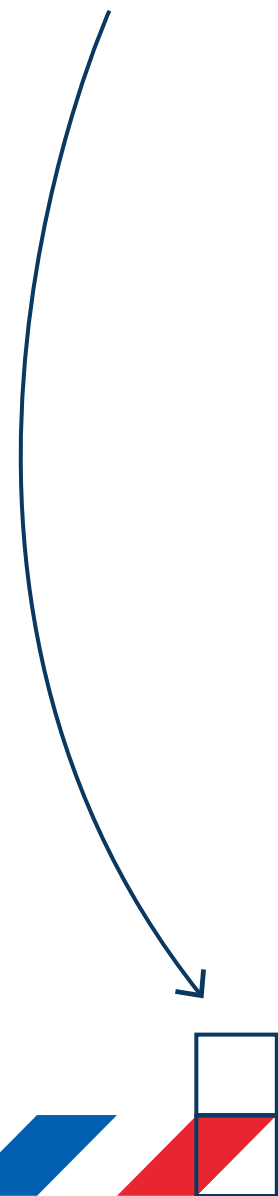

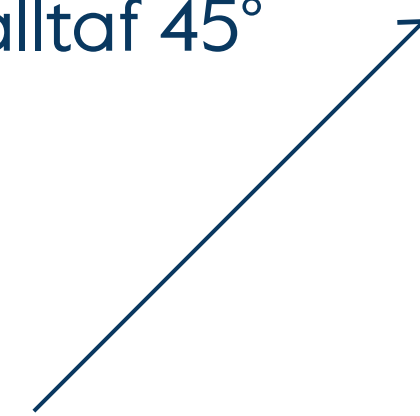

Meta þarf eftir flötum hvernig best er að nota rendur á köntum og í bakgrunnum.

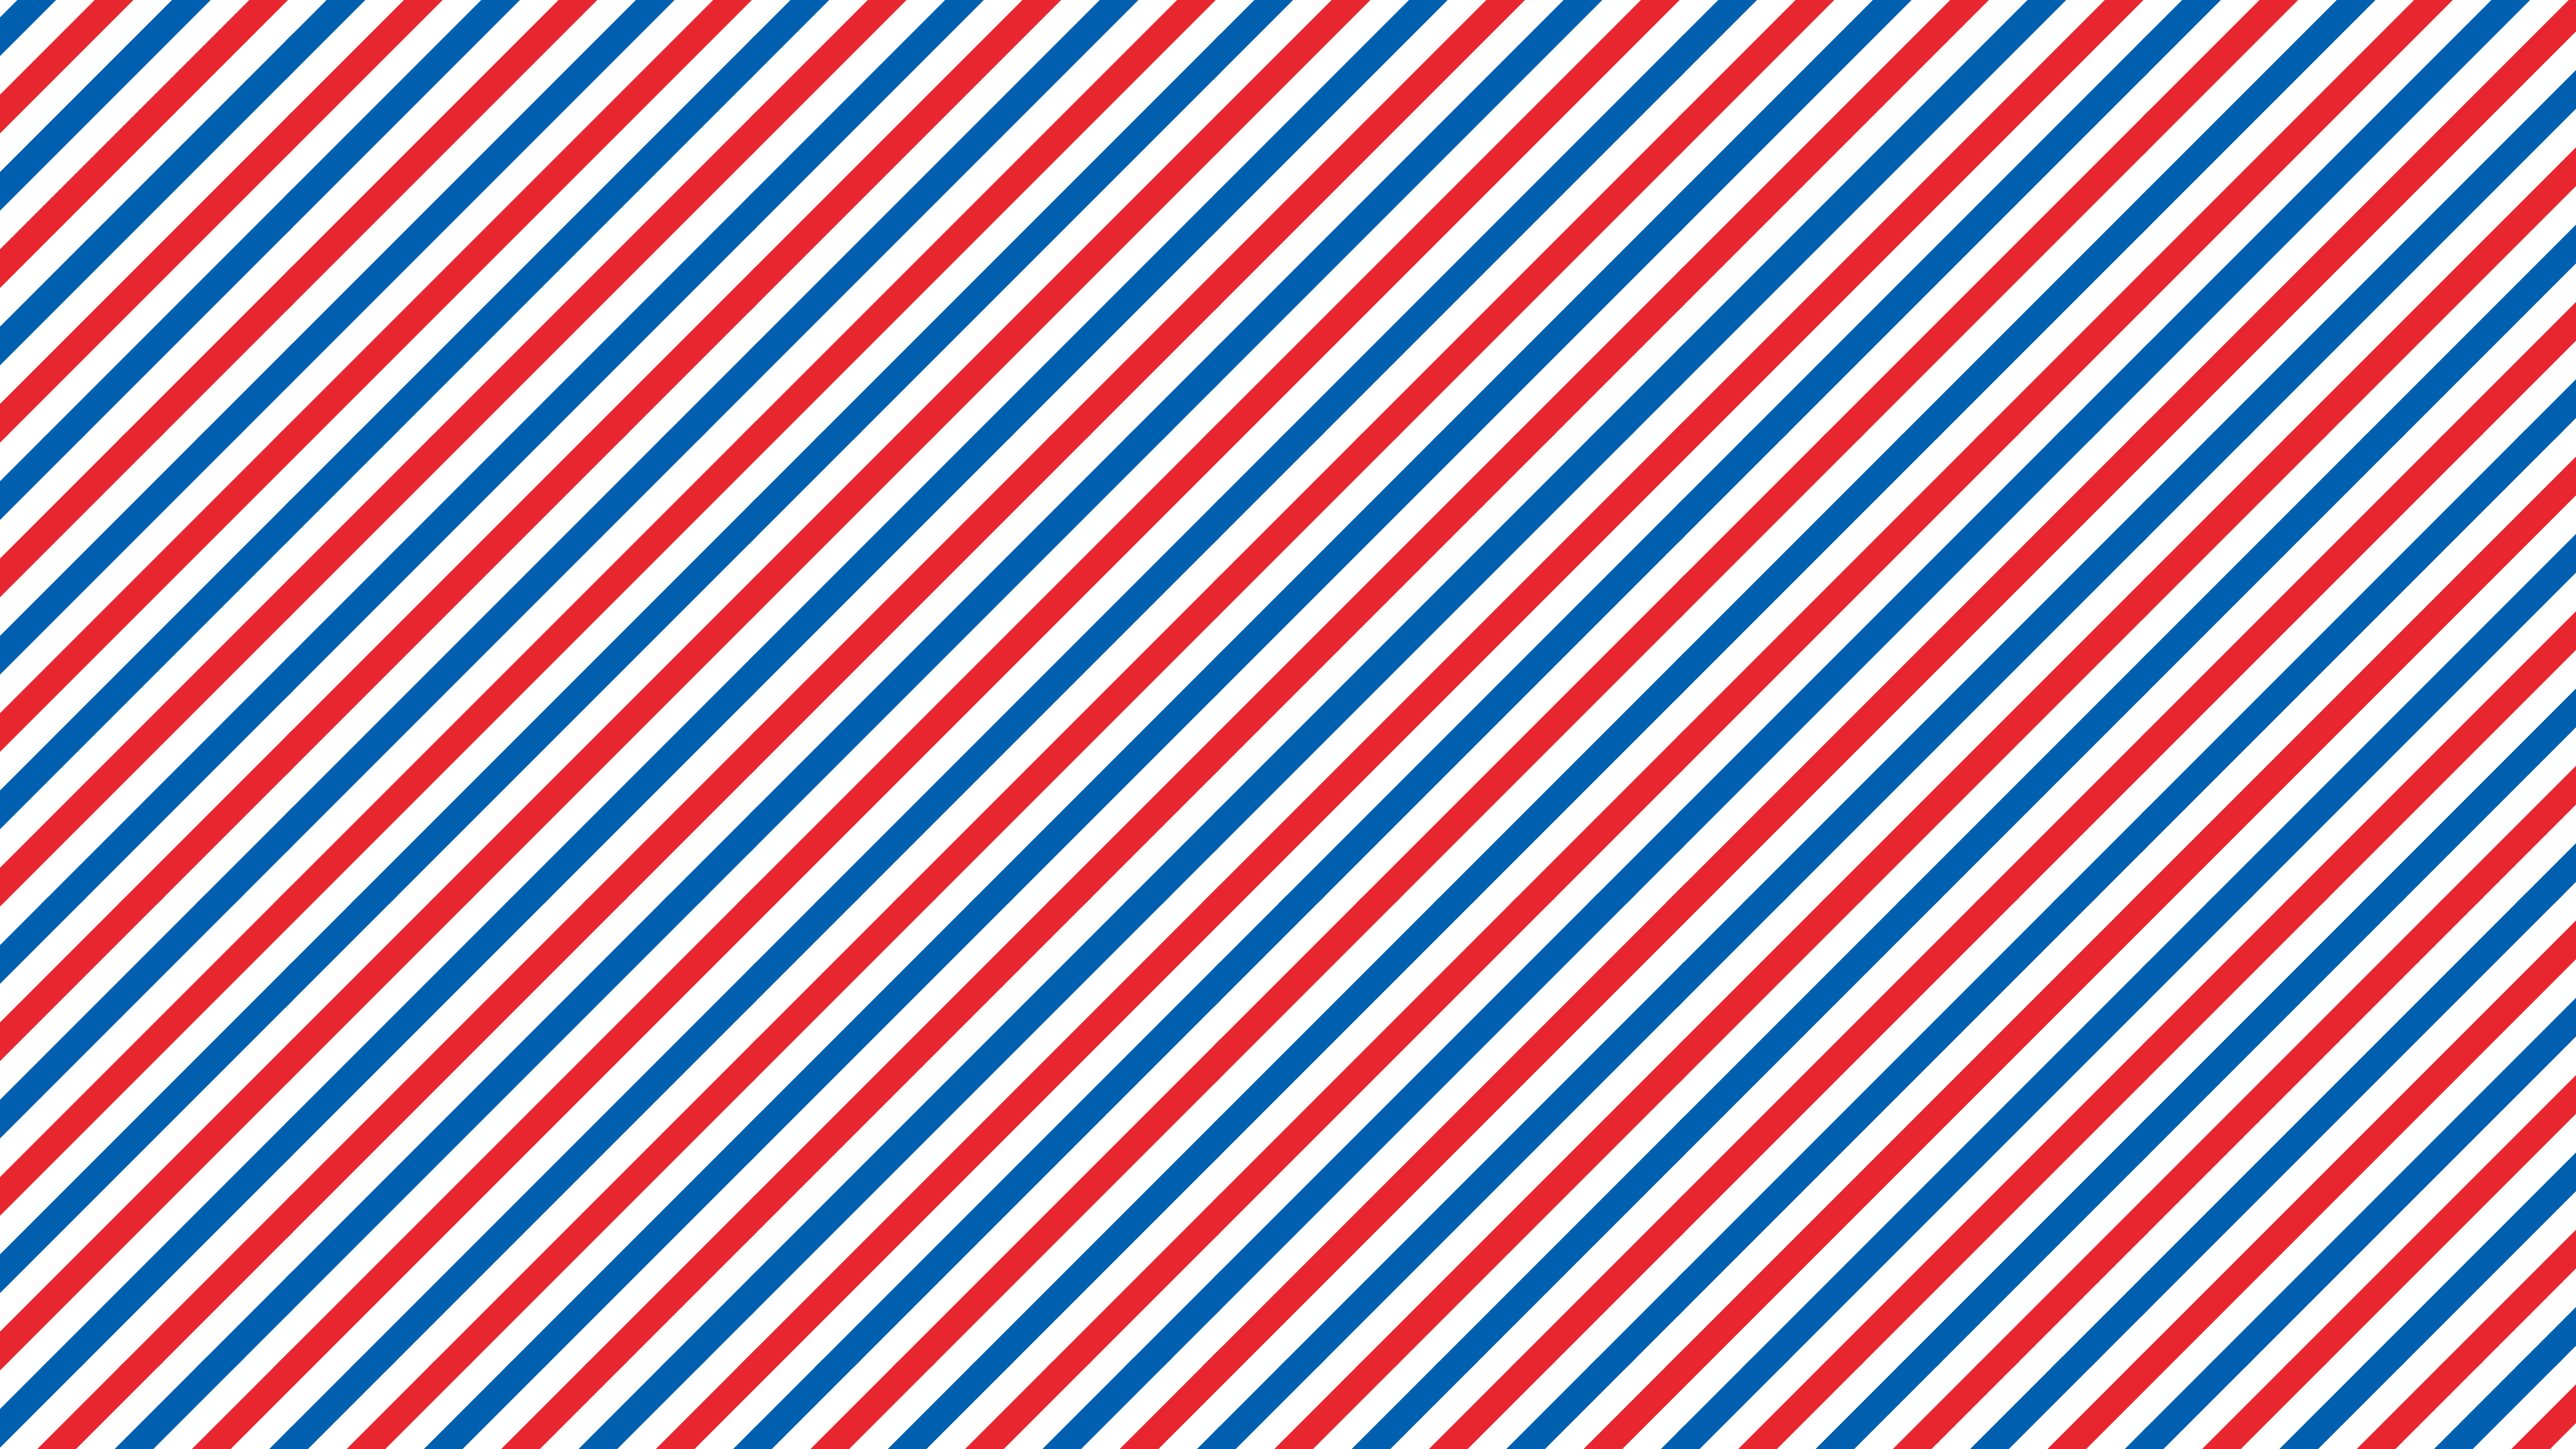

Miðum við ca. þessi hlutföll þegar rendur eru í kanti m.v. breidd flatar og tíðni randa.

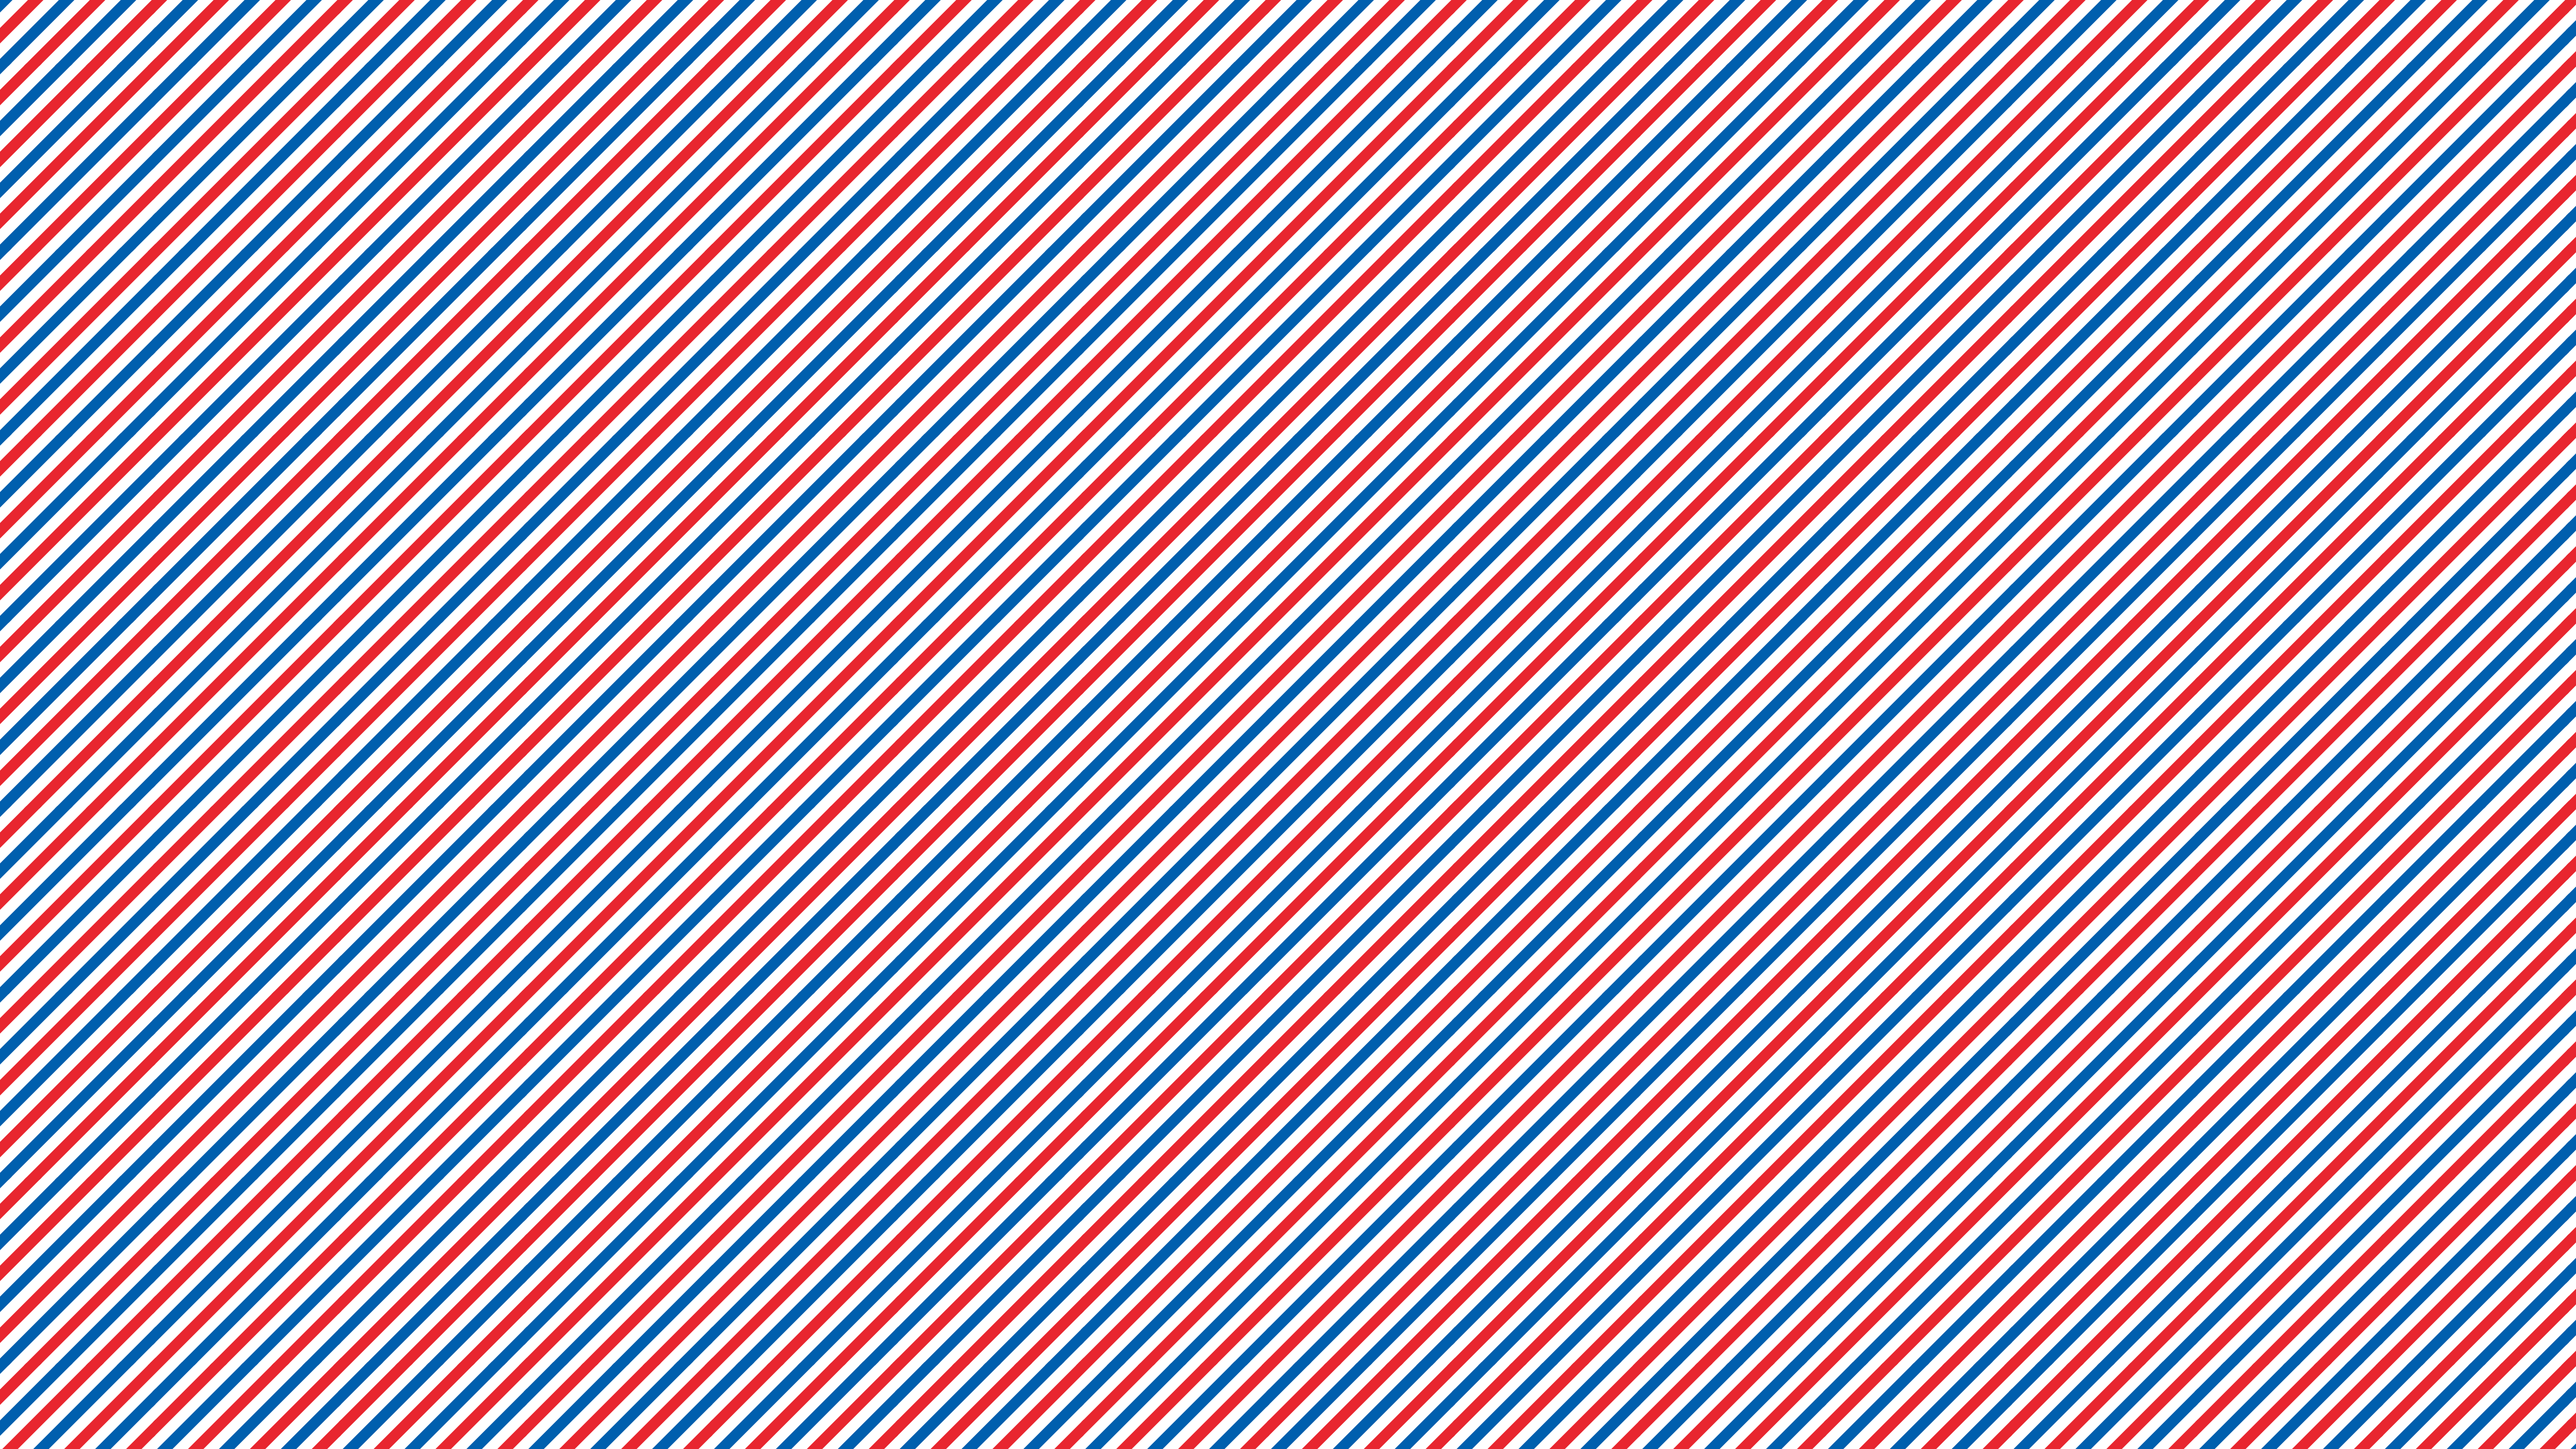

Rendurnar snúa alltaf upp, frá vinstri til hægri (eins og hækkandi línurit).

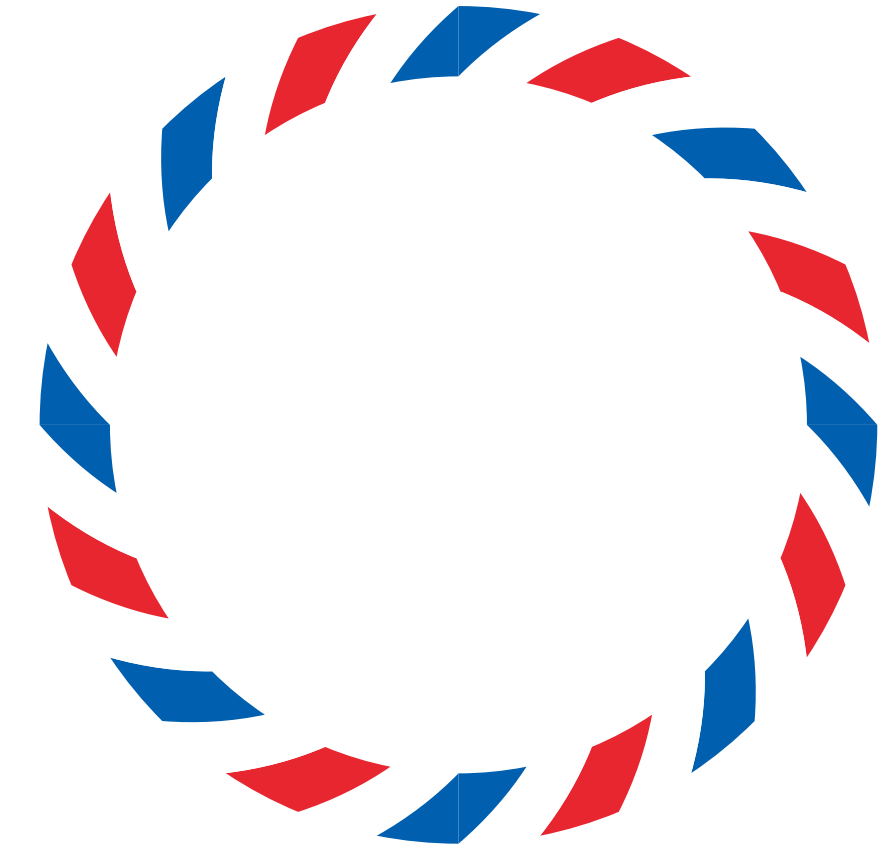

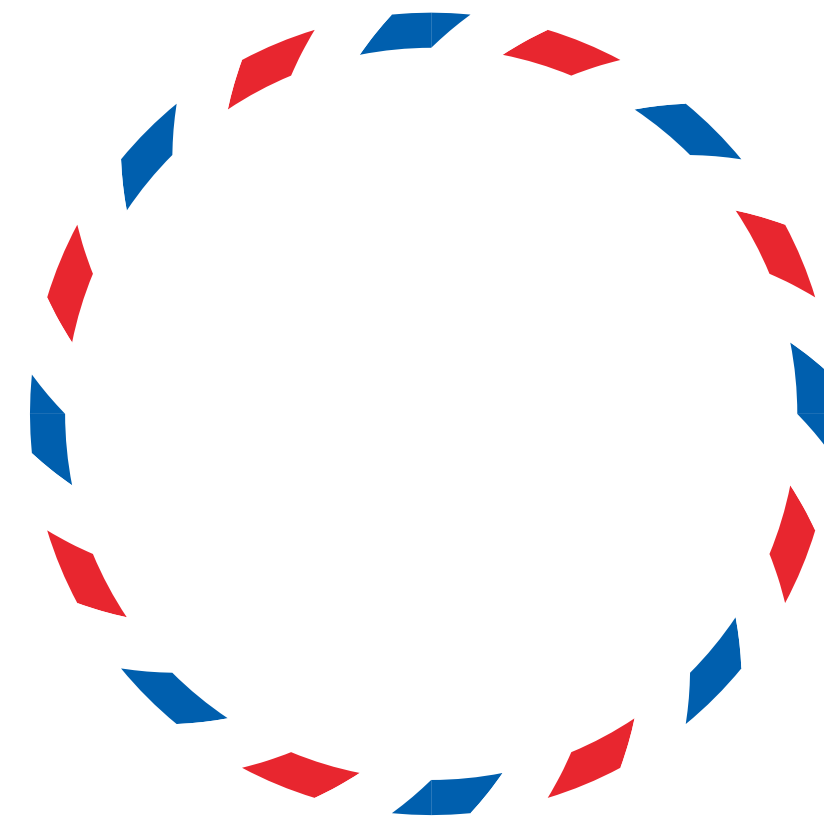

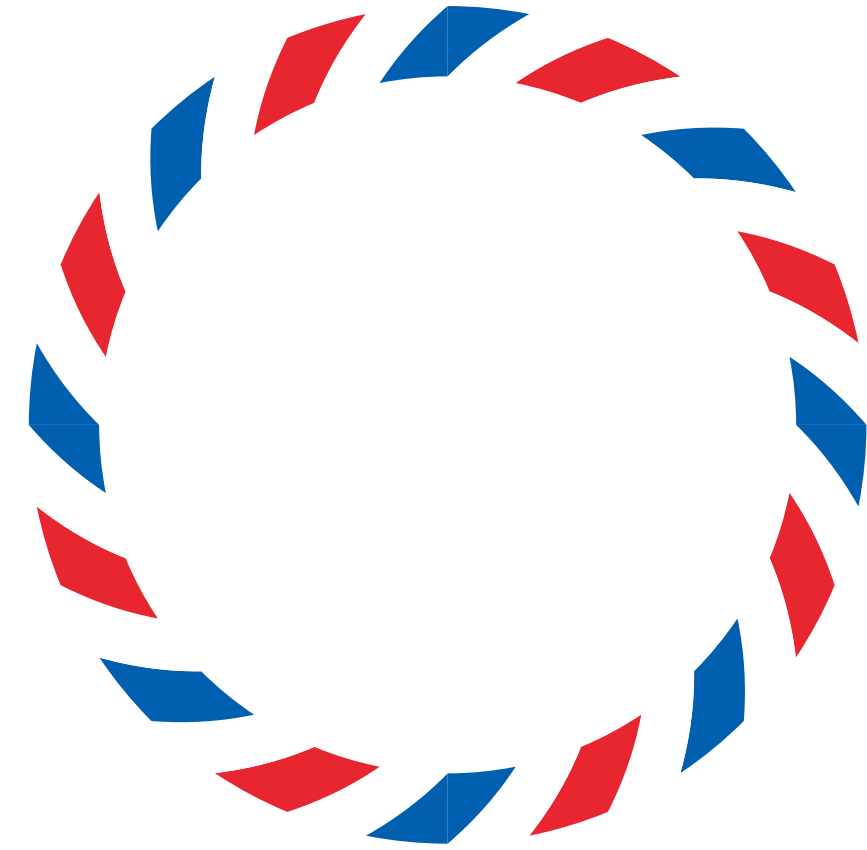

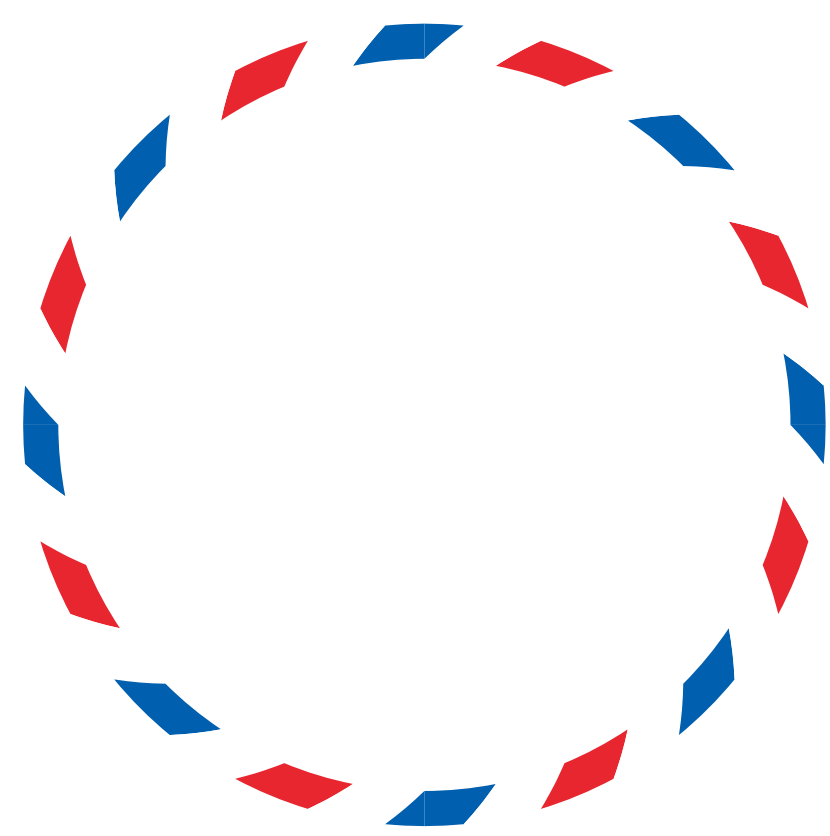

Hallinn er alltaf 45°
